

# North Reserve|Scott Street Master Plan

## Community Workshop #2: Preliminary Plan Concept Review

Please join us to share your ideas for the future of the new North Reserve|Scott Street Urban Renewal District!

**Thursday, February 11th, 6:30 - 8:30 pm**  
**Ruby's Inn, 4825 N. Reserve Street, Missoula**

The Missoula Redevelopment Agency is continuing planning for the North Reserve|Scott Street area in Missoula. The second Community Workshop will ask for feedback from participants on the preliminary concepts for land use, streetscape design, development character, and infrastructure improvements in the Plan Area. The North Reserve|Scott Street Master Plan will focus on improving transportation connections for all modes of travel, enhancing opportunities for industrial uses that provide good paying jobs, and exploring the potential for new homes and businesses that will stimulate Missoula's economy. The Master Plan will create a road map for the future of the area, based on a community-driven process that reflects the needs and ideas of area landowners, businesses, and residents.
