Program Category:	Project Title:		10 Project #	11 Project #	12 Project #
Wastewater Facilities	Airport Interceptor Phase II and "Wye" Collection System		WW-05	WW-03	WW-03

**Description and justification of project and funding sources:**

This interceptor would allow extended sewer service to the Butler Creek/"Y" area. The interceptor would start at the airport and run west past Butler Creek and on to the "Y" area. Plans are to have the preliminary design made in Fiscal Year 2011. Two lift stations serving the airport will be abandoned once the interceptor is complete. The "Wye" collection portion of the project was funded by rural special improvement district (RSID) assessments. This RSID was citizen initiated to allow extended sewer service. A sewer collection system was constructed in the "Wye" area to serve the properties in the RSID. City's upsizing of the main occurred in 2009. City Sewer Development Fees would complete the Interceptor portion near the Airport when capacity would be required. County Tax Increment Funds may also be used.
